Thank you for contacting R.W. Holland LLC for your exchanger needs.

Our inventory is kept in Tulsa Oklahoma and exchangers can be shipped in a matter of days depending on the reconfiguration required to meet your process needs. We provide our customers with a thermal and hydraulic performance and our exchangers can be quickly modified to meet specific needs.

Due to the EPA and Oklahoma Water Commission rules and regulations we cannot accept any exchangers that have not been water flushed. If the equipment is not flushed it will be returned to the customer freight collect.

In accordance with OSHA Standard 29 C.F.R. Part 1910, a Safety Data Sheet (SDS) must be submitted. We must have the SDS prior to receiving the returned unit.

Rental Details

Model: (model)
(S/N)
